The process of teaching and learning is a two way process. The communication and a bond between the two is a key to success in achieving the objective. The teacher who plays the role of a friend, philosopher and guide can

well read the mind aspirations of his student. The student too relies upon his teacher. Having hand in hand they can march forward in achieving the academic objectives along with their individual personalities. Hence mentor scheme is an integral part of any educational institution. The teacher tries to cater to the needs of the students a part from academics. The role of a teacher begins with the very first step of the student in the college premises which lasts for the long. • At the time of admission, the teacher counsels regarding the choice of the subjects and subject combinations. • He also guides the students regarding fee structure and the scholarships available. •

The difficulties faced by the students in getting text books and study material is sorted out with the help of Library. • He helps and encourages them to participate actively in co curricular and extracurricular activities by joining NSS, Sports and different committees. • The heterogonous structure of the class poses the first challenge. As the students belong to the different socio-economic and cultural background, their responses are different. • The teacher identifies the slow learners by conducting assessment activities and engages extra periods and extra guidance for them. He tries to keep their morale high and to keep intact their confidence and tries to make their performance better and up to the mark. • While having identified the advance learners, the teacher pays special attention to them with the expectation of getting rank in the list of students having outstanding performance. The students are encouraged to participate in the activities of national and social interests such as tree plantation, registration of new voters, voters awareness programme, cleanliness drive, women empowerment, women feticide etc. • Gender sensitization and environmental awareness programmes are organized to make them aware of their role in the making of happy and healthy society. The paper of Environmental studies is made mandatory for all the second year student. • The students are provided special coaching for competitive examinations like MPSC, UPSC, NET, SET etc. • They are also encouraged to participate in various intercollegiate and university level competitions to show off their latent talent along with games and sports. • The mentor points out the specific skills and the shortcomings of the individual students and tries either to carve them out or to compensate them. • A mentor leaves no stone unturned in the making of responsible citizen out of a village guy by helping him by all possible means at his disposal. • He arranges teaching aids, practical demonstrations, field visits, excursion tours etc. • Additional facilities like book bank, students Aid fund are preferably meant for them. • Financial support through scholarships, concessions, cash prizes, learn and earn scheme.

Yoga day is also celebrated with real and forever. Our policy is to create conducive atmosphere for the students and the faculties who are in the pursuit of knowledge. The competitive culture is

another feature. The staff members take pains to get it rooted among the students. The library has good number of books regarding competitive examinations. The mechanized gym is utilized by the students willing to join military and para-military forces. The young boys of the adjoining villages also use it by paying minimum fees to maintain it. The institution has multidimensional approach towards not only the academic development of the students but also towards all round development of the young personalities and minds.

7.2 – Best Practices

7.2.1 – Describe at least two institutional best practices

The Institution is aware of its duty and responsibility towards society at large and students' in particular regarding the awareness of social issues is one of our prime concerns. The mission, goal and objective of the institution is a guiding spirit behind the activities carried out on the campus and off the campus. The following best practices are implemented in the session. Best Practice I Title of the practice: - Annapurna Yojna. Goals:- being a part and parcel of the society to feel the pains of the people in distress is but natural. Hence the scheme is initiated to help the people in distress. This makes us to adhere to a sense of social responsibility and to have realization of the critical condition of the people going through it. Context:- A large number of people suffering from number health problems rush to Dr. Panjabrao Deshmukh Memorial Hospital and Research center, run by the parent society. Most of them belong to poor section of the society. Therefore, cannot afford to have nutritious meals to ensure speedy recovery. They have to fight on various fronts at the same time. The Practice:- By the initiative of the hospital management and parent society ' Annapurna Yojna' was started. The employees of the parent society willingly contribute a sum of hundred rupees per month and arrange healthy and nutritious diet for the patient. Evidence of success:- A substantial relief is given to the patients by saving time and energy of their keens. So that they can concentrate on the work of looking after their patients. The staff members also get satisfaction and a sense of gratitude in return. Problems encountered and resources required:- As a staff is of limited numbers, there are limitations and limited fund is generated. Though having sincere will all the members could not play active role in the process of serving food. Best Practice II Title of the Practice:- Students welfare fund Goals:- To support students from economically backward class and to make them concentrate on their studies is the prime intention of the scheme. To eliminate the factors hampering academic development and to root spirit of cooperation, sacrifice and satisfaction on both the ends is other purpose of the scheme. Context:- As the institution is situated in the rural area and the majority of students belong to the poor socio economic background, they do not afford higher education. Though the government is providing a helping hand in the form

of scholarships, free ships, concessions, they lack some of the facilities physical and financial like uniforms, rain coats, umbrellas, text books, note books etc. Besides a support in the form of admission and examination fees is of great work for them. The Practice:- The idea of raising fund for students welfare is discussed and having got approval from the authority, a sum of 200 rupees per month is collected and deposited in the bank account. The committee meant for it gets information about the urgent needs of the students and prepares a list of beneficiaries after counseling with them. The articles needed are purchased and distributed among the students in need. Evidence of Success:- Without getting disturbed by some of the physical and financial wants, the students are able to concentrate on their studies. The feeling of oneness, cooperation, and satisfaction is developed on the part of the students and the staff. Problems encountered and Resources required:- Our teaching staff is of ten members only. Hence, there are limitations in helping more number of students. A discouraging response is seen in fund raising from donors and NGO's.

7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

All our efforts are in tune with the goal, mission and vision of the institution. The doctrine and objectives of our founder president Dr. Panjabrao Alias Bhausahab Deshmukh is a guiding principle for us. We believe in positive and constructive role expected from an educational institution by the agrarian society. As the college is situated and surrounded by the villages we are familiar with the requirement and needs of the students belonging to masses. Keeping in pace with the changing scenario of competitive world we are trying to cater with the best of our abilities and limitations. Good student supports facilities and infrastructure we are heading towards the mission of shaping and molding of the young personalities over the years. The college campus is spread over 0.78 hectors and is situated in the midst of orange orchards. The process of teaching and learning yields better results while in the lap of nature. The infrastructural facilities like classrooms, staff rooms, seminar hall, and spacious library with reading room, administrative block, gym, NSS and IQAC office, Principal's chamber with antechamber, girl's common room are available on the campus. The academic needs are fulfilled by making available number of optional subjects. Highly competent faculties belonging to the same background as students have are eager to help students in multiple ways. The central library is spacious and rich with books, magazines, journals, e-books and internet connection. Indoor and outdoor sports facilities are also provided along with mechanized gym. The students are motivated to participate in events organized by the university and parent society. The students aspiring to join military and paramilitary forces take advantage of these facilities. As we believe in the all-round development of the students, multidimensional approach and efforts are but necessary. Along with academic activities cultural activities are also conducted on the campus giving exposure to the latent talents of the students. Weekly and special campus of NSS instill social responsibilities and awareness. The celebration of national days and birth and death anniversaries of great souls is a source of inspiration to root in spirit of sacrifice, dedication, patriotism, nationalism, humanism etc. By providing incentives in the form of scholarships, free ships, concessions, the students belonging to lower socio-economic strata are helped. Physical facilities are also being provided from students Aid fund. The facility of diesel generator

ensures uninterrupted power supply. The premises is under surveillance to ensure safety and to avoid any untoward incidents.
